

Topics

Background—the need for multimodal transportation systems

Research Agenda (7 Tasks)

- **Redefining the Transportation System**
- **Establish estimates of exposure and risk by transportation mode**
- **Establish estimates of benefits by transportation mode**
- **Determine models of conflict/collisions in multimodal environments**
- **Develop countermeasures (CM) to increase safety of non-motorized modes**
- **Improve methods for evaluation of CMs**
- **Institutionalize safety for non-motorized modes**

Conclusions
